MINDEN, ONTARIO

THURSDAY, NOVEMBER 7, 1974

MINDEN'S RICHARD PARISOTTO RESIGNS.

Moves to
Capreol

Jan. 2

Minden's popular Richard Parisotto is leaving the area. In a surprise move earlier this week, Mr. Parisotto announced his resignation as of the end of this year as Clerk-Administrator for the Townships of Anson, Hindon and Minden in order to take a new position with the town of Capreol as Clerk-Treasurer.

According to one council member, although Mr. Parisotto advised Reeve Reg Booth of his possible move at the time he first applied for the Capreol position, Reeve Booth neglected to either inform his council or take any action to induce him to stay on.

In fact, members of council other than the Reeve, first learned of Mr. Parisotto's resignation only when he delivered a personal note to each of them just last Friday.

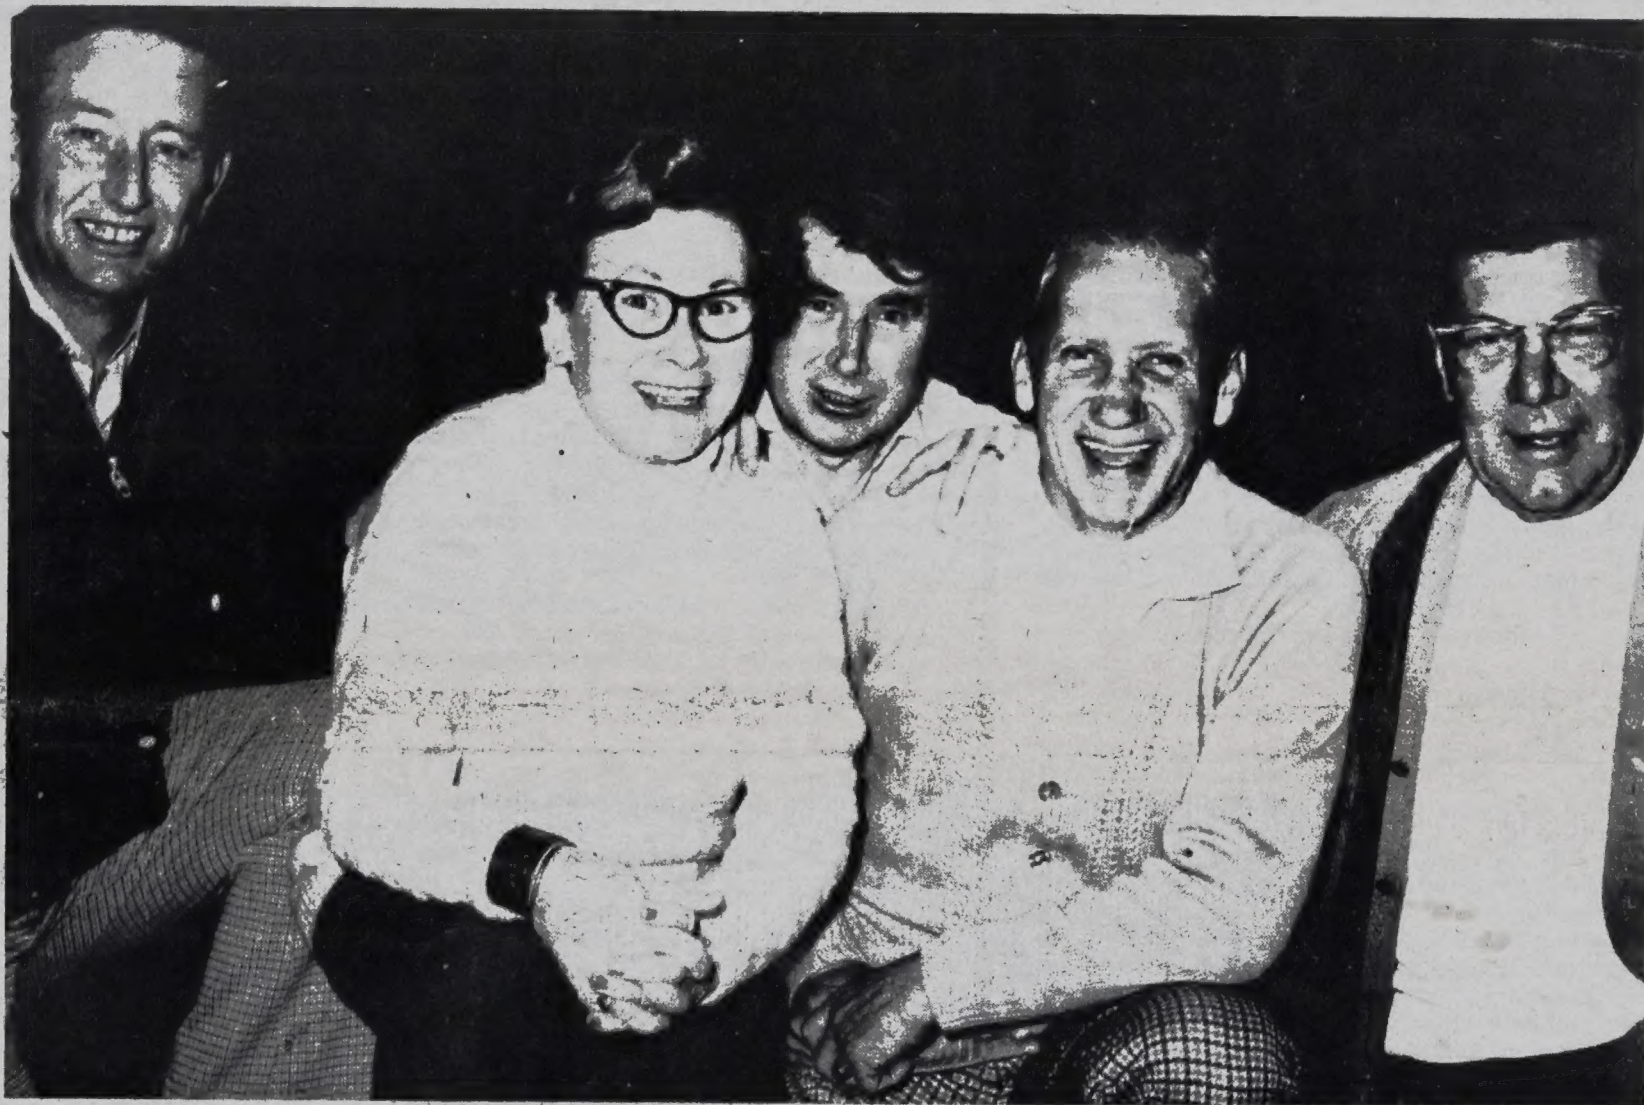

Mr. Parisotto will assume his new position in Northern Ontario on January 2, 1975. Capreol is a community of some 3,500 population just north of Sudbury on the C.N.R.'s transcontinental line.

A dedicated and highly skilled administrator considered tops in his field, Mr. Parisotto's outstanding leadership had been regarded as an absolute MUST for his municipality over the next few years when Anson, Hindon and Minden face a variety of new problems, including the installation of a total sewage system and the restructuring of Haliburton County.

Mr. Parisotto, who was appointed Clerk of the Municipality in May, 1970, assumed the duties formerly held by the late Gordon Bibby. In addition to his Clerk's duties and Treasurer's duties, he also held the position of Secretary-Treasurer and Member of the Minden Recreation Committee, the Community Centre Board of Management and the Minden Cemetery Board.

During his tenure in Minden, Mr. Parisotto was President of Minden Minor Hockey Association for 2 years when there was no arena in the Village, Vice-President of the Haliburton Highlands Chamber of Commerce, Chairman of the Fund-Raising Committee for the new Community Centre. Currently he is in his second year as President of the

HAPPY CURLERS

It was the Minden Curling Club's most successful 'Open House' yet, a week

ago last Saturday, as some 82 curlers and would-be curlers turned out to try their

hand and eye at curling and enjoy the Club's third annual such event. Seen here at the

height of the evening's festivities are (left to right), Bob McCallum, Mrs. Betty

Taylor, Vice-president Doug McGee, President Ed Pettinger and Director Pat Taylor.

Women's Institute meet

On a lovely Oct. 16 afternoon, 23 members and 4 visitors gathered at the home of Mrs. Lyman Cox for the regular meeting of Minden Women's Institute.

The president, Mrs. M. Sears conducted the meeting welcoming all guests. It was decided to make a contribution to the C.N.I.B. Delegates to Central Ontario Area Convention in December are to be Mrs. L. Cox or Mrs. P. Clarke. Due to transportation difficulties, invitations from Burnt River and Fenelon Falls branches to join with them on a bus

Minden Agricultural Society. While Mr. Parisotto will commence his new duties in Capreol the first of the new year, his wife, Isobel, now the President of the Minden Figure Skating Club, and their three children, Douglas, Ruth and Patricia will continue to live in Minden until the end of the School year in June, 1975.

trip to the Convention were refused.

Mrs. Art Windsor, Convenor of Agriculture and Canadian Industries, gave a short paper on Oil and passed out pamphlets for the ladies to take home.

The Roll Call of a 'New Industry in the past 10 years' was so well answered that the ladies questioned why none of the new industries could find their way to Minden or even to Haliburton County. A poem entitled 'Tell me' was read by Mrs.

A. Pogue. Mrs. Allan Taylor reported sending only 9 cards during the time between the Sept. and Oct. meetings.

The Nov. 20 meeting is to be held at Hyland Crest Home at 2 p.m. and the roll call will be 'Grandmother's Verse'. Come and visit with us ladies.

A very delicious lunch was served by the hostesses during which Happy Birthday was sung to all the members having October birthdays.

Minden curlers hold open house

BY PEG PETTINGER

The Minden Curling Club held Open House on Saturday, October 26 with a successful attendance. The fine ice surface was enjoyed by many curlers. The social evening was well attended and included a sing song,

followed by a luncheon and coffee. The door prize and lucky draw were won by Helen McCallum and Mrs. Paul Prentice respectively. A good time was had by all. Regular curling is expected to start November 4th.

Rotary clubs battle

An attendance battle between the Rotary Clubs of Minden and Haliburton began this week as each club sought to outdo the other in membership attendance at their weekly dinner meetings during the month of November. The competition resulted from a challenge issued by the Minden club and personally delivered to the Haliburton club by Minden pres-

ident Bill O'Brien.

As the contest got under way this week bragging members of both clubs voiced their intentions to 'whip' the opposition.

The competition will culminate in a special dinner meeting for both clubs, the winning club picking the location, the losing club members each contributing an extra stipend.

Legion car winner

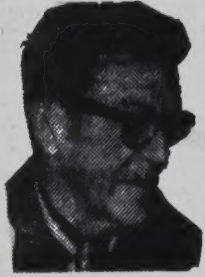

The Royal Canadian Legion Branch 129, Haliburton has announced the winner of its recently completed car draw.

The winning ticket, No. 879, was held by: Clarence McInerney, Minden.

Stanhope group disbands

Lack of interest has been blamed for the recent decision by the Stanhope Ratepayer's Association to disband.

At the time this decision was made there was nearly \$400 in the Association's treasury. This week it was announced that these funds have now been donated to the Stanhope Fire Department.

HERE and THERE with Fenwick Finch

We was all asettin' around the fireplace out to Howland Jet, and sure enjoyin' our grog when this here feller what was visitin' J. Cheever Loophole from the States -- he were some kind of a lawyer same as Loophole. Right in the middle of the conversation he asks -- 'How many women have you raped?' Chester, he near chocked on his grog, me, I had a leetle trouble swallowing mine. The other fellers just set there dumbfounded. I sez, 'Now, look here ye darned old coot there ain't a rape in the whole room.' 'Maybe not,' this feller replied, 'but have you ever thought about it?' We allowed we hadn't so he sez, 'Well, I've run across quite a few cases when I was on the bench in the U.S. -- you might be interested in some of the cases. It'll sure open yer eyes.'

'Shoot,' I sez, 'we're all ears and about nothin' else.' 'Would you believe' he sez, '85% of the younger population could be convicted as sex offenders if law enforcement officers were as efficient as most people expect them to be.'

Dependin' on local laws some strange things can be considered rape. You can go all the way from not keepin' a promise to marry after illicit intercourse to having sexual relations with a girl after a feller has bought her a drink. You might not believe this, but you don't always have to touch a woman to face the charges of raping her. A woman can be guilty of rape if she assists a man in committing one.

A young man was charged with statutory rape of a man's daughter, the girl was under the statutory age of consent and even though she had been married and had a three-year-old child didn't let this young fellow off the hook. First of all before we go any further, what is rape? -- it is defined as forcible sexual relations by a man with a woman he is not married to. I had one case when a husband was charged with the rape of his wife.

Or, to go further, convict a man for rape when the women assured the court that the man had never touched her. The ways the laws are drawn, males over the age of 14 have been treading on dangerous ground without knowing it. Once above the age of 14 a man is really up against it.

'Let's eut this nonsense' said Chester, 'there ain't no possibility of rape in this here bunch, ye're jest wastin' our time ----'

'You fellers are all in the picture, there have been ministers, sports figures, a kindly old grandfather, prominent men in business, dentists have been accused of slipping their patients a little gas then, slippin' them somethin' else.' Practically, accordin' to law every man is exposed to rape at some time or other in his life. I could give you all kind of case histories but I can see you aren't too interested.

By the way, I interrupted, 'I gotta go to the men's room -- is they any chance of me gittin' into trouble.' 'Only if a woman passes by the door and finds you exposed.'

Sure is gittin' dinged tough, a feller will be almost afraid to un-zip himself to answer a 'call to nature' -- he may end up fightin' fer his life and no body believin' his tale.

Got a couple of other items fer ye from Bill Macdonald's books but they'll have to wait until next week.

Well, that is it for this week -- I near got pronged again on the highway but I guess they ain't ready fer me yet. There doesn't seem to be any use askin' people to drive careful and protect himself -- you just get rid of one damn fool and a couple more take his place -- at least, now that the snowmobile season is on us they won't be so many fatalities -- they ain't as numerous as cars.

With the tourists gone home the roads is a lot safer.

TOWNSHIP OF LUTTERWORTH TAKE NOTICE

The Council of the Corporation of the Township of Lutterworth intends to stop up, close and convey part of the Road Allowance between Lots 25 and 26, Concession 6, in the Township of Lutterworth, in the Provisional County of Haliburton, extending from the inner limit of the sixty-six-foot road allowance around the shore of Moores Lake to the old route of Highway Number 35.

The By-law is available for perusal at the Lutterworth Township Office during regular office hours.

The By-law will be considered at the Council meeting to be held on Tuesday, December 10th, 1974, in the Lutterworth Municipal Council Chambers at the hour of 7.30 p.m.

Any person who claims that his land will be prejudicially affected by the By-law may object in writing to the undersigned before 5.00 p.m., December 9th, 1974, and may further attend upon the Council at the appointed time the following evening.

Dated at the Township of Lutterworth this 28th Day of October, 1974.

LUNAN AND ECHOES FROM SPACE

No. 3 in a Series

Since man first began monitoring radio messages, after the invention of radio communications in the early 1900's, it became obvious not all signals were of earth origin. It is accepted most of these noises received come from stars which naturally radiate some form of synchronous pulse caused by the electromagnetic differences in each stellar body. If a distant body radiates light, which most do, then by natural physical reaction some form of noise in the radio frequency is also radiated. As each person's finger print is different, the noise radiated by each planet is individual and distinct. From time to time astronomers, especially since the inception of radio astronomy, have reported monitoring noises that are not synchronistic, like the ticking of a clock, but random and which are sometimes believed to stem from intelligent life somewhere in the universe trying to contact life on other planets.

When Marconi sent the first Trans-Atlantic message from Signal Hill, Newfoundland in December, 1901, the reply he received back from Europe was not what was sent. For a few seconds, he received the letter 'v' in Morse Code. At this particular time there were no other known transmitters operating on earth.

In the late fifties, many people in England after the BBC sign-off one night were shocked to receive a test pattern from a television station in Texas. What was strange about this phenomenon, was not just the great distance this signal had come. It was discovered in the days following that this station had actually ceased transmission five years earlier. Somehow this signal had echoed from somewhere in the universe.

In the 1920's radio experimenters began noting a strange phenomenon they called LDE (Long Delayed Echoes). It was known radio signals could bounce off the ionosphere and return to earth a fraction of a second later, but these LDE signals were delayed from three to fifteen seconds. Research was done in 1927 by a Norwegian geophysicist, Carl Stormer and a Dutch Collaborator, Balthasar van der Pol in recording these LDE signals. At that time the delay in these signals could not be explained and their records were simply filed away.

A twenty-eight year old Scottish science writer and part-time astronomer named Duncan Lunan in studying these old records felt that there was some intelligent pattern to them. By the use of a computer he laid them out in the form of a graph. Some of the groups of signals appeared to him to form a star chart centred around constellation Epsilon Bootes, 103 million light years from earth, not from today's position but from thirteen thousand years ago. Lunan, in a paper presented to the British Interplanetary Society last year in March 1973, put forth the theory that these charts were a message sent to earth from a long abandoned satellite orbiting somewhere in the vicinity of the moon. He also maintained he has decoded a message from this unknown satellite, that can be accidentally triggered by various earth originating radio transmissions to relay its message to earth, that says, 'Our home is Epsilon Bootes, which is a double star. We live on the sixth planet of seven -- check that, the sixth of seven -- counting outwards from the sun, which is the largest of the two stars. Our sixth planet has one moon. Our fourth planet has three. Our first and third planet each have one. Our probe is in the orbit of your moon'.

Lunan's theory has been taken seriously enough by NASA, and the suspected location of that satellite was to be studied by the recent Skylab missions. No information has yet been released.

Some scientists eye Lunan's theory with skepticism but his findings are being examined by astronomers in Britain and the United States and there will be at least another year's study before any validity can be given to it.

In 1932 a young Bell engineer, Carl Jansky designed and built a communications receiving horn the size of a railway car for research purposes. Its specific design was to be the 'cleanest and freest from residual noise ever built'. It was used in 1964, with modification, by two Bell laboratory scientists, Arno Penzias and Bob Wilson, for radio astronomy. To their embarrassment the receiver emitted a small but persistent hiss day and night no matter which direction the horn was pointed. Countless hours of examination were spent trying to find what was thought to be a defect in the apparatus with no success.

At this same time a paper was being prepared by a group of physicists at Princeton Institute for Advanced Study, on evolutionary cosmology. This paper predicted that the outpouring of light from the 'Big Bang' (the creation of the universe), is still pouring throughout the universe, its wave length stretched out by expansion to a faint hiss coming from all directions at once. Through consultation with this group of Princeton physicists, it was proved to Penzias and Wilson what they were receiving was indeed an inherent problem in radio astronomy, the sound of 'the echo of creation'.

Real Loss

Richard Parisotto's move to the town of Capreol, as announced in this week's Progress, poses a very real loss; a loss, certainly, to Anson, Hindon and Minden but also to the county of Haliburton.

In his brief 4-1/2 years as Clerk-Administrator for Anson, Hindon and Minden he accomplished more on behalf of his community and the county than most, if not all, have done in their entire lifetimes.

Think of it. As Clerk-Administrator he provided Anson, Hindon and Minden with leadership, dedication and drive, marred only by some of the politicians around him. These same qualities helped to raise Minden Minor Hockey to a new level of achievement and provided the Minden Agricultural Society, and in particular the Minden Fair, with a lifegiving boost at one of the most critical periods in its history.

Minden today boasts one of the finest community centres and arenas in the county...due in large measure to the efforts of Richard who chaired the fund-raising committee.

In addition, Richard's seemingly unlimited dedication to his community has been further reflected in his service to still other organizations: The Minden Recreation Committee, The Community Centre Board of Management, The Minden Cemetery Board and the Haliburton Highlands Chamber of Commerce, on which he served as Vice-President.

That no effort was made by Reeve Reg Booth to even advise his council members of Mr. Parisotto's impending resignation smacks of sheer stupidity. Surely a special meeting of Council to explore and resolve any differences should have been Reeve Booth's first step.

To allow some other community to walk off with one of our most valuable assets and finest citizens reflects a very narrow, short-range view, a callous disregard for this community's welfare.

Such negligence will cost us dearly.

Congratulations

According to the Ontario Provincial Police Minden Detachment last Thursday night was the quietest Hallowe'en they've experienced in years, and right across Haliburton County, too.

In fact, police say it was quieter, with fewer calls, than most other nights of the year.

Aside from the soaping of windows, no other Hallowe'en pranks were even reported.

All this on the type of Hallowe'en night police have come to dread...warm, dry and ideal for traipsing about.

The youngsters of our county are to be congratulated and those of other areas could well note that Hallowe'en really can be a night of fun and harmless pranks without malicious damage.

Letters

November 4, 1974

The Editor,
The Minden PROGRESS,
Minden, Ontario.

Sir:

As an interested citizen and ratepayer within the Township of Stanhope, I read with much perturbation an unsigned letter recently circulated by the Hawk Lakes Property Owners' Association.

It seems to me that the policy of this Association is to mislead the public with rumors, and to make accusations against the present Reeve and Council members of this Municipality to prejudice the ratepayers. For instance, the 'estimated costs' of the projects supposedly to be carried out if the present Council is elected for another term, are grossly misleading. We are not told whose 'estimates' these figures represent. I would like to know, as should all Stanhope ratepayers.

In my opinion, knowing what has been accomplished, the Council has done a tremendous job of governing this area and planning for its productive future. To do this task competently however, it must take into consideration the needs of ALL residents, seasonal and permanent, and realize that the problems facing the Township do not revolve around one small

PLANNING FOR THAT DREAM HOUSE

cottage complex, as some people tend to believe. It would appear that the main intent of the bulletin from the Hawk Lakes Property Owners' Association is to recommend candidates for Council in the forthcoming

municipal election. I maintain that the ratepayers in this area can think for themselves and logically reach a decision as to whom they should vote for, without being prompted and misled by an Association that cannot, or

perhaps does not wish to, distinguish fact from rumor.

Yours truly,
(Mrs) I. Adamson,
R.R. #1,
Haliburton, Ontario.

Report from Parliament

by William Scott M.P.

Next Monday marks the 56th anniversary of Armistice Day, 1918, an event that most people of that time thought was the end of not only a Great War, but the end of all wars, for all time. However, it has not worked out that way.

The word armistice means 'a temporary cessation of hostilities', and that is exactly what the 1918 Armistice turned out to be. The past 56 years have seen a succession of wars, large and small, in spite of the efforts of dedicated and well-meaning peace-makers. Immediately after World War 1, in a world that was tired of human suffering and material devastation, the leaders of the surviving great nations established the League of Nations. This organization was to be a forum for the discussion of international disputes, and the means for settling quarrels among nations without the need for shooting wars.

In the following years we watched helplessly as Japan set out on its conquest of China, and the Islands of the South Pacific. In Europe we saw the rise of Nazism and Fascism, presenting still another threat to world peace, while farther to the East, Russia was spreading its influence through force of arms.

The result of these events was World War 2. This time, though, the war ended with the unconditional surrender of the totalitarian states, and the imposition of strict sanctions against the offending countries. A new World body was established, the United Nations, and this time we saw the establishment of an international organization that had the power to act to prevent the spread of war.

Also, for the first time in modern history, high officials of the aggressor nations, along with others who had been accused of committing atrocities, were tried in an inter-

national court as common criminals. Many of those people were found guilty, and were either executed or sentenced to long prison terms. It could be said that this marked a turning point in the traditional attitude towards nations and individuals who deliberately provoke wars.

The United Nations has not been the complete answer to the problems of the world. It has made mistakes, and at times it has been proved to be ineffective in preventing the outbreak of hostilities. However, it is a far better and stronger institution than the League of Nations, and it is a thousand times better than nothing at all.

There is no doubt that the U.N. has prevented many of the small wars in the last 29 years from developing into world conflicts. In addition, through its dozens of committees and commissions, the U.N. has made a serious attempt to relieve the suffering of poor nations throughout the world, conditions that traditionally have been the breeding ground of wars. This work would not have been done if there had not been a U.N., for the simple reason that it would be too big a job, and too expensive, for any country to undertake on its own.

And so, in spite of the fact that nations still attempt to settle disputes by force of arms, and in spite of the fact that we have not solved all of the problems of the world, it is fitting that we continue to honour our veterans on Remembrance Day. Generations of Canadians have answered the call to arms, thousands of them giving up their lives, and many other thousands suffering wounds. In our observance of Remembrance Day, we not only honour the sacrifices of our veterans, we also serve notice that, even though winning the peace is harder than winning a war, we are not going to give up the fight.

HALL'S LAKE NEWS

by Doreen Stinson

The hunters have arrived! We heard the first two loud shots this morning at six. With eight or nine Hunting Camps, plus day hunters, in the area we are likely to hear a lot more.

Mr. and Mrs. Luther Wilson, who have built a nice new home above Ox Narrows on Hwy. 35, have just returned from a motor trip to visit relatives in Chicago, and glad to be safely back home. They stated that the reduced speed of motor vehicles in the U.S.A. made their driving more pleasant. Immediately they crossed the Border back into Canada they noticed the speeding and passing of cars and trucks more than ever. We wonder if our local M.P. could bring pressure to bear on having our speed laws changed, thus cutting down on accidents?

Folks from Hall's Lake attending Carnarvon United Church yesterday reported a sparse congregation and Boshkung at St. Stephen's there was the usual small number. The exodus to the sunny South has already begun and one sees signs everywhere of closing up for the season. Thank goodness for the winterized cottages and the hardy folk who come back almost every week-end and spend the School Holiday Break and even Christmas in the area!

Congratulations to Mr. Roy Clarke for winning the H.C.S.A. draw prize of \$143.00 recently. The Clarke family have been coming to Hall's Lake from Downsview yearly for several years and have stayed at the Montgomery cottage, but have just purchased the former Jennings' cottage so will be spending more time than ever here at the Lake. Welcome to Mr. and Mrs. Clarke and their family! A few friends and relatives held a little Birthday Party for Laura Mole last Thursday and had a happy time. Several members of St. Stephen's Church plan to attend the Induction of the Rev. Douglas Brown at St. Paul's Church, Minden, this Tuesday evening. Their annual turkey dinner will be served prior to the service. Some of us had planned to attend the Red Cross pot-luck supper and meeting the same night and it seems there are too many functions planned for the same night at this time of the year. We are pleased to hear that some of our local young people have been the recipients of their Honours Diplomas at the Haliburton High School on Saturday evening. Ken and Dick Stouffer and Roger Hewitt all won this honour and we

would like to congratulate them as we know it isn't always easy to attain these high marks! Ken is President of the Student Council and the Stouffer boys take an active interest in the activities of the school, especially in the musical field. A little group including Laurie Kinsman, Penny Harten, Harold Morgan and Dick Stouffer won the Shield for the High School at North Hastings Music Festival recently. The Shield was awarded for the highest marks of the Festival. Congratulations to each of these young folk!

We understand that a very fine musical evening was enjoyed at the Eagle Lake Church a week ago Sunday when Don Nicholson, Laurie Kinsman, Dick Stouffer and Candice and Ray Johnson supplied the congregation with fine selection of songs. Several people have remarked on how it added to the Service and how well they sang.

Great pre-election scurrying is going on in these parts and it is hoped there will be a good turn-out on November 16th at Club 35 for 'Meet the Candidates' Night'. It should be a good time to find out who is running and what their aims and beliefs are. With December 2 (Voting Day) not too far in the distance, we expect a lot of interest to be shown in selecting school board members and council members.

The Ladies are holding their weekly Prayer Meetings each Wednesday morning, and the Guild meets this Wednesday at Mrs. Wm. Mole's home.

Several ladies from this area are planning to help out at the Centennial Christmas Tea and Sale at Hyland Crest, to be held on Wednesday, November 13 at 2 p.m. Donations are being requested for the bake table, candy, home crafts, Treasures of Yesteryear, etc. The proceeds are for purchasing extras for the Residents and one project in mind is a Mobile unit with a hydraulic lift for taking wheel-chair residents for rides or transporting them from the Home to other places. We have seen these units in use in other Homes and they open up a whole new life for otherwise confined residents. We hope everyone who is free to attend the Tea and Sale will make an effort to be on hand. Afternoon Tea at attractive tables will be served all afternoon, and the wives of our two Members of Parliament will be pouring as well as the wife of our President, Mrs. Norman Gilmore and Our Administrator, Mrs. Bursey.

Stanhope Firemen are standing by. They received a call at ten to 1 a.m. when a furnace in a Mobile Home blew up, the other morning. None of us wishes for a fire, but it is a comfort to know these men are standing by and getting together each Monday evening at the Fire Hall on the North Shore Road to keep themselves in shape for such an event.

Miss Bonnie Stinson was home from Mount Forest for the week-end and was pleased to meet up with some of her old Haliburton High School friends in Haliburton on Saturday.

TODAY'S HEALTH

Some gains in fight to control cystic fibrosis

by David Woods

Doctors still don't know what causes cystic fibrosis, but they're making progress in controlling this disease, once nearly always fatal.

At Toronto's Hospital for Sick Children, for instance, the infant mortality rate has dropped from 75 per cent 16 years ago to less than one-half of one per cent today.

Even so, cystic fibrosis is still the commonest lethal hereditary disease.

In Canada, one in every 1,800 newborn babies has it — and its incidence is rising.

While there's no outright cure for this baffling disease, earlier diagnosis and more intensive treatment are bringing some measure of relief to the children, adolescents and young adults who suffer from it.

Formerly, CF was loosely diagnosed as bronchopneumonia or as malabsorption syndrome — but really it's much more complex than either. Basically, cystic fibrosis is a failure of the mucus-producing glands. The CF patient's mucus is gluey and tends to clog the pancreas and lungs.

Blockage of the pancreas, left untreated, can lead to chronic or even fatal malnutrition, because no matter how much food is eaten the patient can't absorb it into the system. Treatment consists of enzyme

capsules — up to 150 a day in some cases — to help the body break down protein, fat and carbohydrates and absorb them.

Huge amounts of drugs are also used to restore the breathing function to the mucus-blocked lungs, and inhalation therapy is required to help CF patients breathe more freely. Then comes postural drainage, a procedure in which an electric percussor — a vibrator with the up-and-down motion of a jigsaw — is used on the chest to help remove mucus from the lungs.

Treating cystic fibrosis, says Dr. Douglas Crozier, head of the Hospital for Sick Children's cystic fibrosis clinic, forces therapists into the position of trying to correct abnormalities they know exist rather than correcting their underlying cause; for the patient, treatment is a rigorous daily chore.

But, says Dr. Crozier, new drugs, especially antibiotics, are giving us better control of the disease. Moreover, since most CF clinics supply funds for drugs and equipment, the economic status of the patient no longer need restrict treatment. The Ontario Ministry of Health allocated more than \$400,000 to these clinics last year.

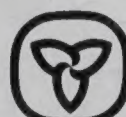

The Canadian Cystic Fibrosis Foundation's offices are at 51 Eglinton Avenue East, Toronto.

STOCKROOM CLERK

Responsible for routine manual and clerical duties in the stockroom located at District Headquarters in Huntsville. Applicant must have Gr. 10 education or equivalent training and experience. Salary: \$3.03 to \$3.95 hourly.

For application forms contact the Ministry of Transportation and Communications, Huntsville, Ontario; Telephone 789-2391. Completed written applications will be accepted up to November 15, 1974.

This competition is open to both men and women.

"INFLATION BEATER"

Fish Dish of the Month

THIS MACKEREL AU GRATIN dish is as economical as it is attractive and tasty; it costs less than 40¢ a serving. Ingredients are: 2 (7-ounce) cans High Liner mackerel, drained and flaked; 1 medium-sized onion, chopped; ½ medium-sized green pepper, chopped; ¼ cup chopped pimiento; ¾ cup mayonnaise; ½ cup fine dry bread crumbs; ½ cup grated parmesan cheese; three strips pimiento for garnish. Mix together mackerel,

onion, green pepper, pimiento and mayonnaise. Spoon into a small, shallow baking dish or au gratin dish. Sprinkle with bread crumbs and cheese. Bake in 350 deg. F. oven until thoroughly heated; about 20 minutes. Garnish with pimiento strips. (Makes 4 servings). High Liner mackerel is an inflation beater because of its low cost of 4.7¢ per ounce compared to solid white tuna at 11.7¢ an ounce and sockeye salmon at 14¢ per ounce.

Hyperventilation linked to drownings

Hyperventilation is the cause of many drownings, according to the Ontario Safety League.

Having just finished a number of sprint laps, an outstanding swimmer took several deep breaths and began swimming underwater. He was soon found motionless in the shallow end of the supervised pool. Autopsy showed blackout following hyperventilation.

The body contains special sensors that detect low levels of oxygen and high levels of carbon dioxide. When these danger levels are sensed, the body is urged to breathe. But the signal can be suppressed.

Hyperventilation lowers carbon dioxide tension in the body but doesn't change the oxygen stores greatly.

A swimmer, having enthusiastically hyperventilated, submerges with a reduced

carbon dioxide tension. As he swims vigorously under water, his low oxygen stores are used before carbon dioxide tension can rise enough to stimulate an irrepressible urge to breathe.

Deprived of oxygen, the swimmer becomes unconscious, often continues his swimming movements, then starts breathing. Unless promptly rescued and resuscitated, he will aspirate water and drown.

Hyperventilation can counteract the built-in warning that urge underwater swimmers to surface and breathe. The Ontario Safety League believes that this may well explain many of the deaths by drowning of experienced swimmers. Hyperventilation can also result from vigorous exercise.

Overbreathing before swimming underwater can lead to needless drownings, even in healthy and competent swimmers.

Not many people will see a mistake you make. Almost everyone in town sees ours!

Your local newspaper's prime function is to present the news . . . honestly and fully. That's all. However, sometimes the reporting goes astray, when the news is printed. Some of our friends think this is amusing. Some don't. We at your local newspaper don't laugh easily when a mistake is made in your local paper.

But in spite of our best efforts, it does happen occasionally. Even the editor had to smile when this caption appeared in his newspaper under the picture of a fallen tree:

The tree downed at this home damaged spouting and shingles . . . it was snapped by a violent gust.

In another newspaper, the coronation of a high school beauty queen took an unusual turn when the proofreaders overlooked this one:

Queen Margie White was escorted to her throne by co-captains Jim Black and Frank Gruff. There she was presented with roses and drowned.

Sometimes the classified ads are full of surprises, too. The young lady who ran this advertisement is still wishing that her friends would let her forget it:

Wanted: Large well-furnished room by young woman about fifteen feet square.

So, when you see one like this:

The Rotary male quartet will sing, "I need three every hour . . ."

Or this:

I am now in position to hatch your eggs at five cents per egg . . .

please remember that local newspapers are regarded by readers as a friend they can't do without, and even a good friend is bound to make a mistake once in a while.

When you stop to consider that over a million inches of news are reported each week in hundreds of weekly newspapers throughout Canada, a mistake here and there doesn't sound too bad to some people. But a misspelled name of a local citizen in a news story is no laughing matter . . . if it's about you.

NEWSPAPERS DELIVER THE LOCAL STORY.

PINE RIDGE DISTRICT

HEALTH UNIT

The Provisional County of Haliburton recommended in 1965 that a joint Health Unit should be established between the Counties of Haliburton and Victoria with a resultant agreement in January 1967 for the Counties of Victoria and Haliburton Health Unit, pursuant to the provisions of The Public Health Act. It was proposed that a more beneficial unit with greater advantages could be feasible by uniting with the United Counties of Northumberland and Durham and finally the Haliburton Kawartha Pine Ridge District Health Unit was approved by Haliburton County by-law in November, 1968 and established by Orders in Council in 1969 with the Head Office in Cobourg. The Board comprised two members appointed by the Lieutenant Governor in Council, three members appointed from the United Counties of Northumberland and Durham, two from Victoria, and one from Haliburton. A Medical Officer of Health and Business Administrator were appointed with staff working from nine offices to establish uniform services throughout the area concerning communicable disease, tuberculosis, immunization, public health nursing, audiology and Environmental and Food control. Mr. Gary Agnew, Reeve of Monmouth Township, was appointed representative from Haliburton County and has now held that responsibility for five years. The Minden and Haliburton offices combined and operate from the old Red Cross Hospital in the community of Haliburton (listed under 'Health Unit' in the telephone directory). Expanded services now comprise under the Public Health Nursing category - Nutrition and Diet Counselling, Prenatal Classes, Health Education, Referral to Local Community Resources, School Health Services, and Communicable Disease Investigation. Public Health Inspectors are responsible for water supplies, lot and sewage disposal installations, food premises, recreation areas, communicable disease control, sanitation of public establishments, and other related services. A comprehensive program of Preventative Dental Services has also been instituted. Operational costs are billed from the Head Office of the Unit in proportion to population, and the approved amount is included in the County budget for these services provided for the benefit and protection of the people of the County.

COMING CENTENNIAL EVENTS:

Wednesday, November 13 - 2.00 p.m. - Hyland Crest Centennial Christmas Bazaar and Tea.

COUNTY... where life is living - for everyone

ONE THAT DIDN'T GET AWAY

Bill Porter, 32, left, son of Mr. and Mrs. Arthur Porter of RR 1, Kinmount, can tell about the one that almost got away two weeks ago but with

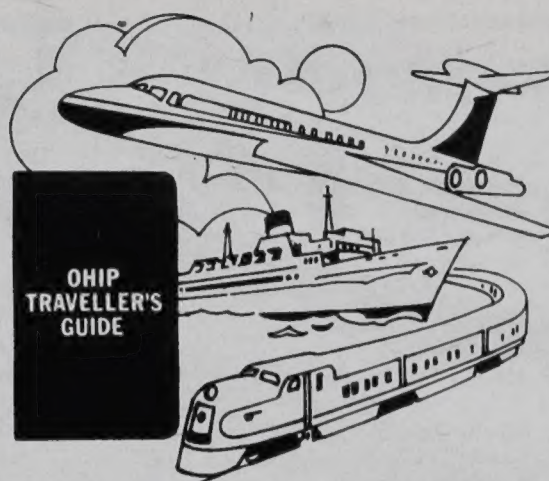

the help of friend Danny Bowers he managed to land this 15 lb. Coho salmon at Super Creek near Bowman-

ville. Porter hooked the big fellow on an 8 lb. test line and, after 45 minutes of struggling, during which

time the salmon left one deep hole and wound up in another, the pair finally landed it, but not before Bowers had to almost go swimming.

What happens if you get sick or have an accident while you're travelling?

This is what Ontario is doing to protect you away from home.

1. Know what benefits OHIP provides before you leave home.
2. If you consider that your OHIP coverage may be insufficient, you can obtain supplementary coverage from private insurers for out of province charges.
3. Always carry your OHIP card with you.
4. In a financial emergency, ask the hospital to phone or write OHIP to confirm your coverage.

Remember, you will usually have to make payment on the spot for treatment outside Ontario. But OHIP will reimburse you for insured services if you submit itemized receipts within 6 months of the date of service.

Describe why you were outside of Ontario - vacation, business, etc. - and provide complete personal information plus details of the medical or hospital service performed. Include name and address of physician, hospital, fee for each service and dates. And always state your OHIP number.

A free booklet called "The Traveller's Guide to the Ontario Health Insurance Plan" explains everything you need to know.

Copies are available at government offices and travel agencies. Or write to:

OHIP Traveller's Guide
Health Resource Centre
Communications Branch
Ontario Ministry of Health
Hepburn Block, Queen's Park
Toronto, Ontario, M7A 1S2.

Ministry of Health
Frank Miller, Minister

Your Ontario Health Insurance Plan (OHIP) is designed to help you anywhere in the world. In case of injury or sudden illness outside Ontario, OHIP will pay the cost of standard hospital accommodation.

For non-emergency services, it will pay up to 75% of the cost for the type of hospital service normally covered under your Ontario Plan.

Medical fees will be reimbursed to you at 90% of approved services as set out in the Ontario Medical Association Schedule of Fees.

But bear in mind that medical costs in some countries are often higher than in Ontario. So avoid being faced with a bill considerably higher than the amount OHIP can repay you, by doing four things:

Government of Ontario

Haliburton County Council meet

The regular October meeting of County Council of the Provisional County of Haliburton was opened by Warden Murray Fearrey at 10:00 a.m., Wednesday, October 16, 1974, in the Council Chambers, with the following in attendance: Murray Fearrey, Warden; Reginald Booth, Douglas Pritchard, Anson, Hindon & Minden; Jerry M. Howarth, Improvement District of Bicroft; Malcolm McGillivray, Cardiff; Roy Brohm, Dysart et al; Robert L. Fotheringham, Norman Locke, Glamorgan; Robert Beene, Lloyd Walker, Lutterworth; Gary Agnew, Keith Tallman, Monmouth; Arthur L. Lock, Sherborne, McClintock & Livingstone; Robert Vick, Gareth Kellett, Snowden; Sinclair G. Nesbitt, James Harrison, Stanhope; D. Jack Cox, County Engineer; Winifred M. Lahay, Clerk-Treasurer.

That we approve minutes of the meeting of September 18th as circulated. Carried.

Finance Chairman Reginald Booth reported accounts to be in order as examined by the Finance Committee prior to this meeting.

Be it resolved that we approve payment of accounts, per list circulated, in the amount of \$29,596.39, representing cheques numbered 473 to 524 inclusive. Carried.

A list of all correspondence was circulated, from which the Clerk was requested to read the

following communications: Ministry of Treasury, Economics & Intergovernmental Affairs: consideration of changing the Provincial Fiscal year. Ministry of Attorney General: Report of building inspections by Grand Jury.

Regional Municipality of Ottawa-Carleton: requesting support for revision and control under Registry and Land Titles Act.

Township of Glamorgan, with copies of pertinent letters, reference to control of lake levels.

Haliburton Kawartha Pine Ridge District Health Unit: proposed amalgamation with Peterborough City/County.

Victorian Order of Nurses: establishment of V.O.N. services and agreements.

To: Mrs. Marie Wallace: Appreciation of County Crest replica made by Eagle Lake Women's Association for Hanging in Council Chamber

Haliburton Highlands Chamber of Commerce: space on ground floor Registry Office Building to be occupied for winter months.

Al Rawlins: recommending promotion of an annual 'Haliburton County Day' at Ontario Place.

Comments and recommendations were made on subjects of correspondence following the reading of each letter.

That we ask Council to concur with correspondence

as read and presented. Carried.

Mr. George Hamilton, Director of Leslie M. Frost Natural Resources Centre addressed Council as scheduled, giving a detailed report on the present use and planned operation of the Leslie M. Frost Natural Resources Centre in Sherborne Township, formerly the Forestry School, and projects accomplished to date.

Be it resolved that the County of Haliburton do concur with a proposal by Ottawa-Carleton re. change in severance control reference Section 44A to control illegal severances more efficiently as described in letter from Regional Municipality of Ottawa-Carleton under date of October 2, 1974. Carried.

That Mr. Hewson of the Assessment Department be invited by the Warden to the November meeting. Carried.

That Haliburton County Council approve the amal-

amation of the Haliburton Kawartha Pine Ridge District Health Unit with the Peterborough County-City Health Unit. Carried.

Council requested that representation from the Department of Indian and Northern Affairs be invited to attend the regular November meeting of County Council to discuss the problem of water level control in the County.

That Robert Fotheringham, Roy Brohm, Reg Booth, and S. G. Nesbitt be a committee set up to have a detailed report and proposal for November County Council re. water levels in Haliburton County. Carried.

Property Chairman Lloyd Walker reported that parts of the new furnace were already installed in the County Building with the balance of parts promised for early delivery and assembly.

This October County Council meeting was adjourned at 11:45 a.m.

NOTICE

THE HALIBURTON

T.B. & R.D. ASSOCIATION

would like to thank all its friends who throughout the years so generously contributed their money and time to help this organization.

The Associations in this county and in the adjoining county of Victoria feel that the aims and purposes of the Associations can be carried out more efficiently from one central office. Therefore these two associations are now amalgamating and henceforth will be called

VICTORIA-HALIBURTON

T.B. & RESPIRATORY DISEASES ASSOCIATION

As in the past the funds raised in Haliburton County will continue to help support local health programs. A portion of the funds will continue to support Research on Emphysema, Chronic Bronchitis, Asthma and other Respiratory Diseases.

Please continue to have regular X-Rays and to use Christmas Seals.

VICTORIA-HALIBURTON

T.B. & R.D. ASSOCIATION

Some will tell you
this card costs you
\$2.50 a month.

Surprise!

Sure you pay for a Commerce Key Account. But with what you pay now for personal cheques alone, it's not going to be any \$2.50 extra.

Think of it. If you write just ten personal cheques a month, at 14¢ a cheque you can spend \$1.40 right there. So the most you'd possibly pay more for a Key Account would be \$1.10.

And that soon pays for itself in benefits. Take Bankplan Loans. With a Key Account, the Commerce gives you preferred rates on most consumer loans.

Travellers' Cheques. With a Commerce Key Account, you'll never pay a service charge to get them.

You'll never be charged

for O'Canada or our new Key Account personalized cheques, using our 24-Hour Cash Dispensers, paying utility bills, purchasing money orders or domestic drafts.

A Key Account gets you a Commerce Charge Card and overdraft protection. Plus an identification card that lets you cash your personal cheque, instantly, at any of more than 1600 Commerce branches in Canada.

Surprised?

Many are. But then, in the course of an average month, it's even more surprising how many times the need for a Key Account pops up.

TELEVISION

ABOUT THE TOWN

with Jeanne Sears

Eighteen librarians and staff attended a Workshop at County Library Headquarters on Wed. Oct. 30. Jeanne Sears from Minden and Margaret Pickens from Gooderham gave a resume of the Library Training Course they attended near Barrie. Their enthusiasm and interesting comments gave us an idea of the varied and worthwhile subjects discussed. All the libraries were represented and as usual problems were shared and solved to make this another beneficial afternoon and plans were made for Book Exchanges later this month.

Some people have left our county for a winter in the south, included are Mr. and Mrs. L. Prentice, Mr. and Mrs. M. Prentice, Mr. and Mrs. Ron Redgers and Mrs. J. Hounsell.

Once again hunters may turn in moose or deer hides at Ministry of Natural Resources offices and here participate in a draw or receive a handy angler's tool, depending on where this is turned in. The hides are used by the Indians for their native crafts.

All their friends send good wishes to Mrs. Ada Allcorn at Civic Hospital, and to Loyne Cox at Toronto General and to Mrs. S. Laine at St. Joseph's Peterborough, to Mrs. L. Rowe at Scarboro Centenary, and to Yvonne Beaucage at Ross Memorial and to Mrs. Floyd Hall and Charlie Rumbleau at the local hospital.

Mr. and Mrs. Dave Titus and family of Stouffville spent the weekend with Mr. and Mrs. Bob Hughes.

Mrs. Roger Austen was the recipient of a baby shower recently at the Nelson Austens at Brady's Lake.

All the community joins in good wishes to Mr. Henry Duckworth on the 9th of this month when he celebrates his 95th birthday.

Hint of the week -- Want a quick cover for your little one, tear off 2 sheets of paper towel and cut out a place on the fold for the head, makes an instant bib and won't fall off.

At the L.O.B.A. Card Party at the Orange Hall last Monday night winners were for cribbage Mary Cox, for euchre Cassie Legge, Greta Alsop, Robert Wright and Bob Vick with Vera Fuller taking the Lone Hand Prize. After the games a delicious lunch and cup of tea were served by the ladies and a social time enjoyed by all.

A new arrival is Deborah Ann, first granddaughter for Mr. and Mrs. Ern Hewitt and Mr. and Mrs. Gordon Couper, and first child of Margaret and Fred Hewitt. Glen Sears, Louise, Bernice and Allen of Toronto were weekend guests with his parents Mr. and Mrs. M. Sears. This is the time of year to clean the filters and registers of your heating system and also to make sure those storm windows keep out the drafts. Choose a temperature that suits you and keep it there only turning it down at night if you prefer cooler temperatures. Adjusting your thermostat takes more oil, they tell me.

Gerald Coulter of Toronto was weekend guest with his parents Mr. and Mrs. Angus Coulter.

Mrs. Dolly Wilson, RR 2, Minden and Mrs. J. Graham are home, glad both are better.

At the Mini Card Party at the Parish Hall last Thursday afternoon winners were for bridge Mrs. Shuyler, for cribbage Diane Stevens and Lillian Davidson and for euchre Shirley Elcome and Lydia Coulter.

There may be Story Time at Minden Library starting Friday morning the 15th between 10 and 11 if there are enough people request this. Just phone the library afternoons from 3-5 this week at 286-2491.

It isn't the size of your house so much
That matters so much at all.

It's the gentle hand, its loving touch

That maketh it great or small.

The Friends who come, in the hour they go,

Who out of your house depart,

Will judge it not by the style you show--

It's all in the size of your heart.

It isn't the size of your head so much,

It's the wealth you found,

That will make you happy--It's how you touch

The lives that are all around.

For making money is not so hard--

To live life well is an art;

How men love you, how men regard,

Is all in the size of your heart.

Mrs. G. Fauser Alberta.

The village was busy Saturday with hunters getting supplies for their annual hunt. Hope they enjoy a good holiday and are successful this week, and may they have good weather too.

Cheerio until next week.

TODAY'S CHILD

BY HELEN ALLEN

THE TORONTO SUN SYNDICATE

One glance tells you Julie is a happy baby. At 19 months, healthy and invariably sunny-tempered, Julie has no idea she is a little girl with a problem.

Julie was born with Downs Syndrome (commonly known as mongolism). Because of this condition, she has developed more slowly than average and will probably require special schooling as she gets older. However, she is considered well within the educable range.

Not walking yet, Julie is a speedy crawler. She isn't talking but is quite vocal and expressive, leaving no doubt in anybody's mind about what she wants. Though behind in these two areas, she is animated and responsive and appears to have a good deal of drive and energy.

Julie shows a lively interest in things going on around her. She enjoys her toys and handles them well. She is a good eater and sleeps right through the night with a couple of daytime naps.

Julie needs a mother and father who will appreciate her appealing personality and who can accept whatever limitations she may have. People considering adopting a child like Julie will find government programs and parents' groups all over Ontario to help in bringing up below-average boys and girls.

To inquire about adopting Julie, please write to Today's Child, Ministry of Community and Social Services, Box 888, Station K, Toronto M4P 2H2. For general adoption information, consult your Children's Aid Society.

SHE'S ALWAYS GOOD NATURED

Manpower Statistics

The Canada Manpower Centre in Peterborough added a new member to their staff when Mr. Len Burt was transferred from Arnprior Ontario as a Special Programs Counsellor.

The Department of Manpower and Immigration has appointed Special Programs Counsellors in selected Canada Manpower Centres across Canada and Len Burt is one of 25 appointed in Ontario Region.

In the Peterborough Office, Len Burt is responsible to the Manager, Dick Kenzie, for establishing firm working relationships with other agencies such as Peterborough Social and Family Services, the Ontario Ministry of Community and Social Services, service clubs, help agencies, penal institutions, parole services etc. to the benefit of "special needs" clients.

"Special needs" clients are those who because of limited personal motivation, lack of marketable skills, special physical or emotional handicaps, lack of adaptive skills, age or inexperience, remain unemployed even when there is an adequate demand for workers.

These clients have multi-service needs which are related with other difficul-

ties and their employment needs cannot usually be met independently, hence the necessity for cooperation with the many help agencies in the area.

In his work with local agencies, Len Burt is expected to develop such ideas as reciprocal referral of clients, sharing of information, joint referrals, counsellor exchanges, case references etc., which will assist both the agency and the Canada Manpower Centre to achieve the objective of placing the "special needs" client in employment.

He will also consult with local area groups and communities regarding Manpower service and programs in terms of impact and adequacy and also assist in development of proposals.

Prior to his assignment in Peterborough, Len Burt was a Manpower Counsellor with the CMC in Arnprior, and earlier worked with Department of Veterans Affairs as a Welfare Officer. A former pilot with the RCAF, he is a veteran of World War II.

He is married to the former Joan Nora Robinson and the couple have five children, two of whom live at home on Severn Road, Peterborough.

Aluminum Wiring

Reports that aluminum wiring used in thousands of Canadian homes could be a fire hazard are exaggerated, according to a special Ontario Hydro team set up to study the matter.

J. A. Dicker, Hydro's manager of electrical inspection, said that although the team will continue its investigations, "things aren't nearly as bad as alleged earlier".

The combination of poor workmanship and the use of improper wiring devices on aluminum wire increase the possibility of electrical failure, he added. The team's investigation revealed several failures involving aluminum wire but damage was generally confined to the outlet box and no actual fires resulted.

"The number of reported failures are very small in terms of the number of installations," Dicker said.

The special team was set up after news reports several months ago suggested that aluminum wiring -- which has replaced its more costly counterpart, copper, in most new home circuits -- was turning residences into "time bombs" waiting to go up in smoke.

"That just isn't the case", said Dicker. "But we recommend strongly that home owners keep a close eye on the behavior of their electrical systems, whether they have aluminum wiring or any other kind." He said the Hydro team's interim report indicates a general upgrading of all wiring systems in today's homes may be desirable.

"Heavy appliances such as air conditioners are coming into common use today and they can be a strain on the electrical system," Dicker added. "A general improvement in standards might be a good idea."

The team recommended that anyone concerned with electrical installations watch for these warning signs:

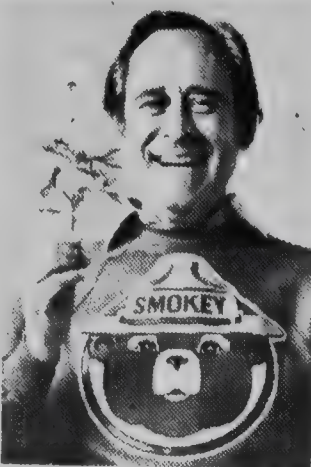

* hot or discoloured plates on switches or receptacles;

October weather

BY P.M. GRAHAM

Average High	51.8
Average Low	29.1
Average for month	41.5
Aver. for Oct./73	48.7
Highest temp.	
Oct. 5	68
Lowest temp.	
Oct. 20	12
Rainfall	4.1 in.

October was a cold, miserable month, starting out the first day with up to 5 inches of snow in areas north of Minden. This caused considerable damage due to leaves still being on the trees. The average temperature was 7.2 degrees below last October. The rainfall about the same as last October.

When someone spends thirty years reminding people to be careful with fire, and he does it for no other reason than to save our forests, he makes a lot of friends. Even if he's just a bear.

* unusual odours in the vicinity of an electrical outlet;

* persistent but intermittent flickering of lights for no apparent reason.

The Hydro team urged homeowners who notice any of these symptoms to consult a qualified electrician or electrical contractor immediately.

Monarchs improve slowly

BY DWIGHT THOMAS

After two weekends of play, the Minden Monarchs still remain winless, but are slowly improving. Friday night action in Minden saw the Monarchs drop a close 3-2 decision to the Bracebridge Hawks. This was the same team that trounced Minden 13-4 only five days earlier. The opening period Friday saw the visitors score three unanswered goals only to have Minden storm back in the second on goals by Craig Morrison and Jack Raymond. Mike McElwain picked up an assist on Morrison's goal, while Jeff Campbell and Rick Dunsford supplied assists on Raymond's marker. The Monarchs continued to bombard Forsythe, the Bracebridge goalie, for the remainder of the game but could not score the equalizer. Forsythe came up with numerous glove saves that preserved the Bracebridge lead. Minden received 42 of the 56 penalty minutes called in what was a relatively clean hockey game. That was in great contrast to Sunday afternoon's game in Penetang in which one game misconduct and 63 penalty minutes were called in the first period alone. The Monarchs scored the lone goal of that wild first period, when Scott Larue and Mike Jackson assisted on Craig Morrison's power play tally while Penetang were two men short.

The Monarchs picked up a new player for this game and he should prove to be a very valuable acquisition. Ian Sclater is a former member of the OHA Sr. A. Barrie Flyers, defending Allan Cup champions, and will help to anchor a strong defense with his size and experience. Sclater assisted on Minden's second goal, which was scored by Mike McElwain just 45 seconds into the second period, to put the Monarchs ahead 2-0. But by the seven minute mark, Penetang had drawn even on goals by Dubeau and Bressette. Eight minutes later Danny Carpentier scored Minden's final goal on a power play with an assist going to Scott Larue.

The Monarchs tired quickly in the third period allowing Penetang to score 5 successive goals and win the game by a 7-3 count. In the final analysis Penetang received 53 minutes in penalties plus a game misconduct to Maloney while the Monarchs were assessed 25 penalty minutes plus a game misconduct, handed out to team captain Mike Jackson, midway through the second frame. Any player who receives a game misconduct penalty, under OHA rules, is automatically suspended from playing in his team's next two scheduled games, so Jackson will not see action in Thursday's game in Fenelon Falls or Friday's game here.

Once again we hope to have your continued support in the future and look forward to a good crowd at the Minden arena, Friday night at 8.30 when the Monarchs host Bradford. The Monarchs also play tonight (Thursday) in Fenelon Falls, game time is 8.30 p.m.

Also, please note that the Monarchs schedule appears in this week's paper, so clip it out and save it for future reference.

MONARCHS SCHEDULE

Thursday, Nov. 7 - Minden at Fenelon
 Friday, Nov. 8 - Bradford at Minden
 Friday, Nov. 15 - Schomberg at Minden
 Tuesday, Nov. 19 - Minden at Bradford
 Friday, Nov. 22 - Fenelon at Minden
 Friday, Nov. 29 - Elmvale at Minden
 Sunday, Dec. 1 - Minden at Elmvale

 Tuesday, Jan. 14 - Minden at Bradford
 Friday, Jan. 24 - Minden at Schomberg
 Sunday, Jan. 26 - Minden at Bracebridge
 Thursday, Jan. 30 - Schomberg at Minden
 Friday, Jan. 31 - Elmvale at Minden
 Wednesday, Feb. 5 - Minden at Penetang
 Friday, Feb. 7 - Fenelon at Minden

All games begin at 8.30 p.m. with the following exceptions

Nov. 19 - 8.15 p.m.; Dec. 1 - 8.00 p.m.; Dec. 8 - 8.15 p.m.
 Dec. 22 - 7.30 p.m.; Dec. 29 - 8.00 p.m.; Jan. 14 - 8.15 p.m.; Jan. 26 - 7.30 p.m.

BUY NEW CANADA SAVINGS BONDS

New Canada Savings Bonds are a great combination of security, income and flexibility. They're a secure investment, backed by all the resources of Canada. They pay 9 3/4% a year, guaranteed to you year after year for 9 years.

Canada Savings Bonds can be bought for cash or on installments wherever you bank or invest, in amounts from \$50 up to \$50,000. And, as always, they are

cashable anytime at their full face value plus earned interest. Buy New Canada Savings Bonds today.

And remember, past Series of Canada Savings Bonds are now worth more than ever. The cash bonus payments have been increased to produce, from September 1, 1974 to maturity, an average annual yield of 10 1/2%. Complete details are available where you bank or invest.

THE GREAT COMBINATION

SECURITY · INCOME · FLEXIBILITY

with
The Highland Snowmobiler
and Roy Bates

Along The Trails

Delegates from snowmobile clubs in Central Ontario met in the Rock Haven Motel at Peterborough October 29, with representatives of the Ontario Society for Crippled Children, the Peterborough Rotary Easter Seals Club and the co-ordinator of the Whipper Watson Snowrama to discuss the concepts of a plan for snowmobilers to help raise urgently needed funds for the Society's extensive research program.

Snowrama '74, held last year on Lake Simcoe netted \$54,000 for the cause. Nearly 700 riders took part in the 100-mile event. This year the campaign will be extended to eleven other snowmobiling centres. The Peterborough division takes in an area roughly bounded by Haliburton, Port Perry, Cobourg and Campbellford.

The basic concept of the plan is to establish a 100-mile course in each division, in a location where snow is a certainty and lake ice is sure to be safe; each participant in the ride to solicit and collect pledges to the Society for Crippled Children (in the manner of a Walkathon) to be honoured upon his successful completion of the ride; and the net proceeds of the day to be divided equally between the Ontario headquarters of the Society and the various Easter Seal Clubs within the region. As an indication of the effectiveness of this method of fund-raising, Susan Brower, co-ordinator of Snowrama, finished last year's ride with \$2900 riding with her!

Here is every snowmobiler's opportunity to do something worthwhile for a very worthy cause and have a lot of fun doing it. Scheduled date of the event is Sunday, February 2, 1975.

Further meetings will be held to work out the final details, to plot the route, and to establish and allocate the various duties of each participating organization. These meetings will be reported on here as they take place.

A Ray of Light from Queen's Park.

Mr. R. Glen Hodgson, M.P.P. (Victoria-Haliburton) who happened along just as our trail clearing operation for Nov. 2 was winding up, stopped to discuss with us matters pertaining to our trail requirements. He informed us that the government of Ontario is finally taking action to establish a Provincial Trails Program, and presented me with a copy of the Official Report on Legislature of Ontario Debates for October 29, 1974, which records several hours of debate on Bill 74, An Act respecting Provincial Trails.

As you should recall, the Hon. Bert Lawrence, then the Provincial Secretary for Resources Development, organized a trails symposium in June of 1973. Mr. D.M. Deacon (York Centre) in his closing remarks upon moving second reading of Bill 74 said:

'Mr. Speaker, it is a long time since that trail symposium

was held. The need is now greater than ever, and I hope that the Provincial Secretary for Resources Development (Mr. Grossman) will follow the lead taken by his predecessor and move. His predecessor moved, but there has been a long and I think -'

Mr. J.E. Stokes (Thunder Bay) 'Deafening silence'.

Mr. Deacon: - 'Deafening silence since the present minister took over. So, Mr. Speaker, I urge that this House approve and support this move to get an organized program of provincial trails under way in this province'. Any provincial trails program will, of course, encompass not only snowmobile trails but trails for all usages from hiking and bird watching through trail bike and dune buggy riding. Which will be perfectly O.K. as far as I'm concerned if the hikers and bike riders and other users help to pay for them. In other words, if these trails are to

be established and maintained with public monies, the present exorbitant registration fee on snowmobiles is not justified unless other trail users are proportionately assessed.

It seems the trail program as envisaged now in the Ontario Legislature, will be a complicated matter. It has taken a long time to get around to it. It will take more time to develop it. And still more time to implement it. No one in Queen's Park, it appears, has given serious thought to the simple Quebec method. Turn 80 per cent of the registration fee back to snowmobile clubs and give them a free rein with it. That will give us snowmobile trails. And who cares, if the hikers, horseback riders and bird-watchers use them in the summer time. It will help to keep the underbrush trampled down.

Start Ranger unit

BY

MRS. ROBERT FREEMAN

The 1974-75 season for Brownies and Girl Guides is into full swing again in Highland District. There were two big evenings held in June, one in Haliburton at which about 26 girls were enrolled into Girl Guides and one in Wilberforce at which about 22 girls were enrolled as Brownies of the 1st Wilberforce Pack.

Already, in this new season, Wilberforce has held an enrollment at which 19 girls have been enrolled into 1st Wilberforce Guide Company, and 1st Haliburton Pack just recently enrolled 22 girls into their Brownie Pack. In the very near future, West Guilford Brownie Pack and

Guide Company expects to hold their first enrollment. Minden and Carnarvon have had Girl Guides and Brownies there for a few years and their Packs and Companies are well established. Consequently, now, in Highland District, there are approximately 211 girls and 25 leaders involved in Brownies and Guides. The girls are all in the age groups of 7 - 9 and 10 - 14 years. The response has been overwhelming, as this outlet for young girls has been long overdue.

Now it's time to do something for the next age group. So Highland District is 'Calling All Girls' between the age of 14 and 18 years if you are in Grade 9 through 18. Highland District is going to have a big Ranger Unit.

There is at present, a very small unit at Carnarvon, with only 6 young ladies, but all leaders feel that there are many more young ladies in the district that would like to be involved in useful activities, meet new friends, fill the void gaps, and have a lot of fun all at the same time. The invitation is open to girls residing in and around Minden, Carnarvon, West Guilford, Haliburton, Gooderham, Tory Hill, Wilberforce, Harcourt, Highland Grove and any other place in the vicinity that

...for people

hasn't been mentioned. We want to hear from you. For further details about being a Ranger, please contact Mrs. Evelyn Brooks at 457-1275, or Mrs. Alice Chambers at 489-2219, by November 22nd. Girls do not have to have been a Brownie or a Guide to be a Ranger. There are a good number of Girl Guides in the District now who were never Brownies. So Ranger aged young ladies, please let's hear from you.

IN MEMORIUM

McKNIGHT

In loving memory of a dear husband and father, Laurence McKnight, who passed away Nov. 3, 1966.

Beautiful memories are wonderful things. They last till the longest day:

They never wear out, they never get lost, And can never be given away.

To some you may be forgotten To others a part of the past.

But to us who loved you and lost you, Your memory will always last.

Sadly missed by wife and family.
